The Poudre Runs Through It Study/Action Work Group

### HOMEWORK

One page or less emailed to MaryLou by October 30. All assignments will be bundled and sent out to participants to read prior to the November 2 session:

*“What is your vision for the Poudre, what would it take to get there and what obstacles would need to be overcome?” Said another way: What’s your personal perspective on what you want the river to look like in 50 years, and what is preventing that? (If you want to include ideas you have for how we might overcome those obstacles, you may.)*
