

What is a Healthy Working River?

The PRTI Study/Action Work Group's definition of a healthy working river is one that supplies the goods and services demanded by our complex society, within the existing and evolving water rights system and honoring existing property rights, while maintaining and improving ecological integrity and resilience.

- What did you think about the perspectives shared by folks in the video? Do you agree with them?
- What are your own perspectives on the question, "What is a healthy working river?"
